Ring Size Guide

Two ways to find your size at home. Please print this page at 100% (Actual Size).

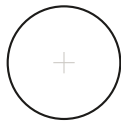

STEP 1 · CHECK YOUR PRINT SCALE

The line below must measure exactly 50 mm. If it does not, reprint at 100% / Actual Size (no “fit to page”).

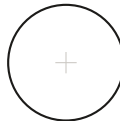

STEP 2 · MEASURE A RING YOU ALREADY OWN

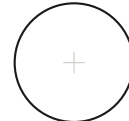

Place a ring that fits over the circles below. The correct size is the circle whose edge sits just inside the ring's inner band, with no gap showing.

Measure Your Finger & Size Conversion

MEASURE YOUR FINGER WITH A STRIP OF PAPER

1. Cut a thin strip of paper about 90 mm long.
2. Wrap it snugly around the base of the finger, below the knuckle.
3. Mark where the end overlaps, then lay the strip flat and measure to the mark in millimetres.
4. That length is your finger circumference. Find it in the chart below to read your size.

Measure at the end of the day, when fingers are largest. If between sizes, choose the larger.
